Petchoa x hybrida ‘SuperCal® Pink Ice PPAF’
American Garden Award 2012 Entry

Everyone loves petunias but they often melt in summer heat. SuperCal® is a revolutionary series of petunia-like flowers that stand up to erratic spring temperatures and dance through the heat of summer beautifully. Try it in the garden or in baskets or containers for a wow effect on your patio.

- Abundant 2 1/2-inch rich pink blooms with yellow center
- Blooms late spring to late fall
- Great annual for sunny hanging baskets, window boxes and pots
- Mounded plants reach 12 inches tall with a 15-inch spread
- Blooms stand up to wind and rain
- Easy care plants attract butterflies
